

The Links @ Thistledown

Hole #1 - Par 2 - 41yds

An "easy" start to your round. The play is a slight draw around the Maple Tree but be careful, OB is only a few paces to the left of the pin. Lots of room to the right but heavy rough will make Par a challenge

Hole #2 - Par 2 - 43yds

Have an extra ball ready because if you hit this one too hard, you will be OB. The ideal play is a slight fade into the pin. The green offers a large landing area along the tree line, but if you bail out right, expect to make a bogey from the thick rough.

Hole #3 - Par 2 - 43yds

An elevated tee shot to the green. The green offers a generous landing area left of the pin, and a fade starting at the center of the green will serve you well. Avoid going right of the pin as it is protected by the heaviest rough on the course.

Hole #4 - Par 2 - 38yds

A large green to land your ball on offers an excellent chance at birdie. Distance control is critical on this hole as the large open area makes the distance deceiving. Play right at the pin with a high, soft approach and make a birdie.

Hole #5 - Par 3 - 68yds

The 1st Par 3. An overhanging branch prevents you from going at the pin. The play is a sweeping hook out to the right and wrap it back to the fairway. Landing in the fairway offers a great chance at birdie. Anywhere else, enjoy the rough.

Hole #6 - Par 2 - 32yds

The shortest hole on the course, but maybe the hardest. Trees prevent the ball from elevating and the green is undulating. A low punch is the only play, but OB lingers down the left side so stay right. The most difficult chipping hole makes getting it close critical.

The Links @ Thistledown

Hole #7 - Par 2 - 39yds

The smallest landing area on the course. The hole is guarded by 2 levels of rough and anything short or long is going to cause problems. Miss to the right of the pin and give yourself a chance at the par.

Hole #8 - Par 2 - 48yds

“Carangelo Corner”. The longest Par 2 creates several challenges. The high rough to the right and a swale to the left give very little room for error on this hole. Miss left and you find yourself at the bottom of the hill. Miss right, long, or short and you are in the thick stuff

Hole #9 - Par 3 - 88yds

An 88 yard Par 3 with a split fairway. Playing the ball to the right side offers an excellent view at the pin and allows an aggressive approach. The longer are on the left is risk/reward. Miss the fairway and you have little room from that angle to land close to the pin.
